Introduction Summary

Over the last 60 years, Tetra Tech Coffey have developed project planning and control capability in infrastructure, recognising that each project is different, and tailoring our solutions to reflect this. This means smart solutions for management, procurement strategies, funding, stakeholder management, community relations and publicity, risk management, scheduling, procurement, construction management, and delivery management.

Our strength is in the detailed management of the project to develop an intelligent risk culture, so projects are completed on time and on-budget. Each project we consult on benefits from the multidisciplinary approach we take by working closely with our experts and contractors.

Our comprehensive construction services include program management, construction management, planning and environmental services, geotechnical and civil engineering, and project construction administration.

We are ISO 9001:2008 accredited, which means our clients have assurance with our quality management and service delivery methodology.

Sector Knowledge

Social and Community housing provides shelter for those who are vulnerable, have low income and/or special needs. Tetra Tech Coffey has extensive experience delivering social housing infrastructure. We know the challenge is to deliver projects which respond to the needs of the residents and communities whilst delivering value for money solutions for our clients. Tetra Tech Coffey has a proven track record of successfully delivering a variety of social housing facilities through all project phases, from strategic development and master planning to construction, handover and occupation. In addition to project management of individual projects, Tetra Tech Coffey has considerable experience in delivering programs of work. We have completed programs of work for the following;

- NSW Land and Housing Corporation;
- Department of Housing NSW;

Panellist Profile

Approved Professional Advisory Panel – Community Housing Futures

- Department of Health and Human Services (DHHS);
- Department of Homes and Housing QLD; and
- The Salvation Army NSW, QLD and VIC.

Tetra Tech Coffey delivers professional services extending beyond project expectations adding value for our housing clients. We are cognoscente of the various federal and state housing initiatives. We follow governments', NGOs', and not-for-profits' governance and reporting structures. We demonstrate flexibility in delivering our professional consultancy services working directly for the client as client-side project managers or at times embedded within the client's organisation.

Our strength is in the detailed approach to the project, underpinned by an intelligent risk culture, and using proven methodologies.
