PROJECT NET ZERO

Project Net Zero, a 100% Indigenous-owned and operated social enterprise, providing national de-fit services by repurposing, reusing, and donating office and hotel furniture as well as non-fixed assets to community organisations

What we do

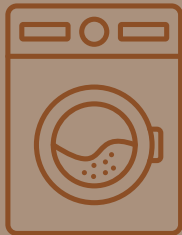

At Project Net Zero, we are dedicated to addressing both business-as-usual needs and disaster recovery for community organisations. We start by sourcing essential items from deficit projects, ensuring they are repurposed to support communities. For additional requirements, we leverage our network of trusted suppliers, offering cost-effective solutions through specially negotiated discounts. If any gaps remain, we provide gift cards as a final option, offering organisations the flexibility to cover any remaining needs, ensuring comprehensive support for both everyday operations and in times of crisis.

Deficit Project Sourcing

At Project Net Zero, we help community organisations by recovering and repurposing quality items from deficit projects, like furniture and electronics. This process reduces waste while providing much-needed resources at no cost. We focus on making the most of these items, benefiting communities and promoting environmental sustainability.

Discounted Sourcing Solutions

Alongside deficit project sourcing, we work with trusted suppliers to offer discounted rates on essential items like appliances and furniture. This helps community organisations access what they need within budget, ensuring they operate efficiently without financial strain.

Discounted Gift Card Solutions

We provide discounted gift card solutions tailored for communities in need. By leveraging Blackhawk's extensive network and expertise in the gift card space, we can source a wide range of gift cards at reduced rates. This initiative supports charities, non-profit organizations, and communities by offering flexible, cost-effective options for essential goods and services.

Disaster Recovery Solutions

As disaster recovery specialists, we deliver fast and effective solutions to communities impacted by crises. We provide essential resources, logistical support, and expertise to help restore normality quickly, minimising disruption and supporting long-term recovery efforts.

Case Study

Background: Givit, a respected charitable organisation, sought to enhance their ability to provide essential items to communities in need. They needed a partner who could efficiently manage large volumes of donations, secure significant discounts, and provide the logistics and storage capability across Australia, especially during disaster recovery.

GIVIT

Challenge: Givit faced challenges in sourcing and delivering essential items quickly and cost-effectively. They required a solution that would allow them to support more communities without exceeding their budget.

Solution: Project Net Zero stepped in to streamline Givit's supply chain. By leveraging our buying power, we secured negotiated discounts and ensured fast, efficient delivery of essential items to those in need. Our extensive logistics and storage network across Australia enabled us to handle large volumes effectively.

Impact

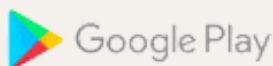

- **Increased Reach:** Givit was able to support 30% more communities thanks to the cost savings and efficient fulfilment provided by Project Net Zero.
- **Faster Response:** Our partnership reduced the time to deliver supplies by 40%, enabling quicker assistance to communities in crisis.
- **Stronger Collaboration:** This collaboration enhanced Givit's ability to provide consistent and reliable aid, both for immediate disaster recovery and ongoing community support.

Project Net Zero's partnership with Givit demonstrates the power of strategic collaboration. Together, we increased impact, efficiency, and reach, ensuring more communities received the support they needed, when they needed it most.

PROJECT NET ZERO

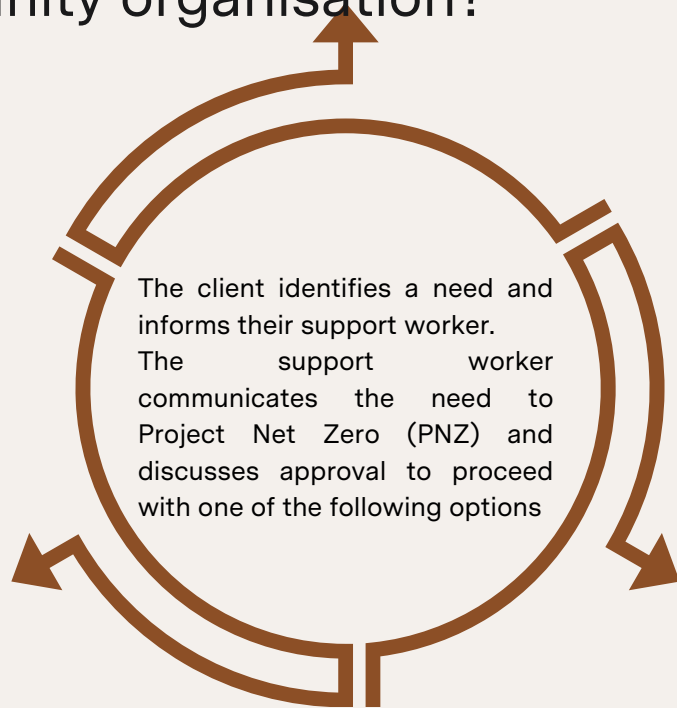

Who we partner with

We partner with trusted brands to negotiate discounted rates on essential items like appliances and furniture. This ensures community organisations can access quality products within their budget, allowing them to operate efficiently without financial strain. Our partnerships make it easier for organisations to get what they need at a lower cost.

We would like to acknowledge all Aboriginal and Torres Strait Islander Peoples as the traditional custodians of the land and water ways on which we live, work and play. We pay our respects to all elders of the past, the present and emerging and their continued connection to the land, our culture and dream time stories for they hold the memories, traditions and hopes of an Aboriginal Australia.

Are you a community organisation?

Maximise Your Impact

By partnering with Project Net Zero, you align with a company dedicated to supporting communities in their time of need. Our solutions ensure your funding goes further, helping you support more individuals effectively.

Join us

We invite charitable and community organisations and brands to collaborate with us. Together, we can build a more resilient and supportive network for disaster recovery and everyday support efforts.
