#### Introduction Summary

JHA is an Australian engineering and design consultancy firm offering a multidisciplinary approach to all stages of a project's lifecycle, from design to construction and operation.

Our comprehensive full-service offering includes engineering consulting for:

- Electrical
- Mechanical
- Hydraulic
- Fire
- Civil/Flood

Our expertise also encompasses Specialist Lighting, Audio Visual (AV), Information & Communications Technology (ICT), Security Consultancy, Level 3 ASP & High Voltage, Fire Safety, Environmentally Sustainable Design (ESD), Vertical Transport, and BIM & Digital Delivery.

Since our inception in 1995, the demand for diversification of services and project sectors has provided a continuous exponential growth. We are a team of 280, located in Brisbane, Gold Coast, Sydney and Melbourne. JHA is able to offer highly informed assessments for projects to understand what is practically achievable. We take pride in the full-service depth of our design expertise, from building services and structural and civil engineering professionals to the full spectrum of dedicated specialists in acoustics, specialist lighting, vertical transport, sustainability, audiovisual, information technology, fire safety, and security.

Our service ethos is to listen to our clients' needs, apply our technical flair and depth to our designs, and ensure that the designs are valuable, practical and constructible. We also understand that on-time delivery is vital to achieve coordinated and collaborative project outcomes.

Ultimately our JHA team members will take a partnering mindset with our clients, and with other project participants, to provide project success outcomes.
